ATLANTIC COAST PIPELINE – Docket Nos. CP15-554-000 and CP15-554-001**SUPPLY HEADER PROJECT – Docket No. CP15-555-000****1.0 ENVIRONMENTAL AND CULTURAL RESOURCES****1.1 Biological Survey Reports**

Atlantic Coast Pipeline, LLC (Atlantic) and Dominion Energy Transmission, Inc. are conducting surveys for various rare, threatened, and endangered species and/or habitat for these species as recommended by the U.S. Forest Service (USFS), U.S. Fish and Wildlife Service (USFWS), and/or State/Commonwealth wildlife management agencies. With this filing, Atlantic is providing the following biological survey reports for the Atlantic Coast Pipeline:

- Roanoke Logperch Survey Report for Virginia;
- Mussel Survey Report for West Virginia;
- Mussel Survey Report for Virginia; and
- Mussel and Other Aquatic Species Survey Report for North Carolina.

Atlantic sent copies of the survey reports to the USFWS and/or State/Commonwealth wildlife agencies, as appropriate, for review and comment. Copies of the survey reports and transmittal letters to the agencies are provided in Appendix A. Because the reports contain location information for sensitive species, they are marked “Contains Privileged Information – Do Not Release”. Atlantic will file comments from the USFWS and State/Commonwealth agencies on each report, as appropriate and applicable, when available.

1.2 Update to the Biological Evaluation

Atlantic continues to consult with the USFS regarding the proposed pipeline crossings of the Monongahela National Forest (MNF) and George Washington National Forest (GWNF) for the ACP. As part of these ongoing efforts, Atlantic updated its draft Biological Evaluation (BE), which assesses impacts and identifies conservation measures for avoiding or minimizing impacts to species on the USFS Regional Forester’s Sensitive Species list. The update to the BE replaces the previous draft filed by Atlantic on March 10, 2017 (FERC Accession Number 20170310-5158). It addresses comments from the USFS on the previous draft (as provided in a letter dated April 24, 2017; FERC Accession Number 20170424-5265) and incorporates results from recently completed biological surveys within the MNF and GWNF.

Atlantic sent the update to the BE to the USFS on August 4, 2017 for review and comment. Both the update to the BE and Atlantic’s transmittal letter to the USFS are provided in Appendix B. Because this appendix contains location information for sensitive species, it has been filed under separate cover. The appendix is marked “Contains Privileged Information – Do Not Release”.

2.0 AGENCY CORRESPONDENCE
