2.0 ENVIRONMENTAL AND CULTURAL RESOURCES**2.1 BIOLOGICAL SURVEY REPORTS**

Atlantic Coast Pipeline, LLC (Atlantic) and Dominion Energy Transmission, Inc. (Dominion Energy) are conducting surveys for various rare, threatened, and endangered species and/or habitat for these species as recommended by the U.S. Forest Service, U.S. Fish and Wildlife Service (USFWS), and/or State/Commonwealth wildlife management agencies. With this filing, Atlantic is providing the following biological survey reports for the Atlantic Coast Pipeline:

- Final Locally Rare Species Report for the George Washington National Forest;
- Final Management Indicator Species Report for the Monongahela and George Washington National Forests; and
- Rusty Patched Bumble Bee Habitat Assessment.

Atlantic and Dominion Energy sent copies of these documents to the USFWS and U.S. Forest Service, as appropriate, for review and comment. Copies of the reports and transmittal letters to the agencies are provided in Appendix B. Because these reports contain location information for sensitive species, they are marked “Contains Privileged Information – Do Not Release”. Atlantic will file comments from the USFWS and U.S. Forest Service on each report, as appropriate and applicable, when available.
