ATLANTIC COAST PIPELINE – Docket Nos. CP15-554-000 and CP15-554-001**SUPPLY HEADER PROJECT – Docket No. CP15-555-000****1.0 RESPONSES TO STAFF RECOMMENDATIONS****1.1 STAFF RECOMMENDATION 20**

Staff Recommendation 20 of the Final Environmental Impact Statement (FEIS) for the Projects directed Atlantic Coast Pipeline, LLC (Atlantic) to consult with the Virginia Department of Conservation and Recreation (VDNR) to determine if the route alignment and construction activities will impact the Burnsville Cove Cave Conservation Site (BCCCS) and to file the results of its consultations, along with any proposed construction modifications or alignment shifts to avoid impacts on this site. Atlantic and its consultant met with Virginia Department of Environmental Quality and VDNR on May 22, 2017 and August 25, 2017, to discuss the Atlantic Coast Pipeline (ACP) with specific reference to karst impacts, including the BCCCS. Based on these consultations, it was determined that the route alignment is very unlikely to have an impact on the BCCCS. The VDNR's formal email response on the result of the consultations is included in Appendix C.

1.2 STAFF RECOMMENDATION 38

Staff Recommendation 38 of the FEIS for the Projects directed Atlantic to file a revised *Virginia Fish Relocation Plan*, *Freshwater Mussel Relocation Protocol* for ACP in North Carolina, and *North Carolina Revised Fish and Other Aquatic Taxa Collection and Relocation Protocol for Instream Activities*. Updated plans that identify procedures for notifying the appropriate federal and/or state agencies if an invasive aquatic species is observed or collected during relocation efforts and also include mitigation measures to be implemented if invasive aquatic species are observed are provided in Appendix A. Because the *Freshwater Mussel Relocation Protocol* contains location information for sensitive species, it has been filed under separate cover as Appendix B. The plan is marked "Contains Controlled Unclassified Information and Contains Privileged Information – Do Not Release". The updated plans were sent to the appropriate federal and state wildlife agencies on September 22, 2017. Copies of the transmittal letters to the agencies are provided in Appendix C.
