

OVERVIEW

Spring Ridge Constructors, LLC (SRC) was selected as the most qualified contractor for the ACP construction project after an extensive, competitive bidding process. SRC's commitment to safe construction practices and best-in-class standards align with Atlantic's expectations for the project. srconstructors.com

SRC has subcontracted construction of the ACP to the following four leaders in North American pipeline construction.

Michels Corporation (Michels), headquartered in Brownsville, Wisconsin, is a company of 6,000 dedicated, innovative and hard-working employees who take great pride in performing safe, high-quality work. For more than 50 years, Michels has exceeded customer expectations. michels.us

Price Gregory International, Inc. (PGI), is a Quanta Services, Inc. company headquartered in Houston, Texas. PGI is a leading provider of infrastructure services with a focus on construction of pipelines and related facilities. In business for more than 100 years, the Company has successfully completed hundreds of pipeline projects in a safe and cost-effective manner. PGI's highest priority is the safety and health of employees, vendors, customers, those affected by construction activities, and the surrounding environment. pricegregory.com

Rockford Corporation (Rockford) is a Primoris Services Corporation company headquartered in Dallas, Texas. Rockford specializes in large diameter natural gas and liquid pipeline construction. For more than 50 years, Rockford has been a leader in exceptional construction services and has earned a reputation for excellence in the pipeline industry. Rockford is committed to the safety and health of employees, subcontractors and clientele. primoriscorp.com/business-units/rockford

U.S. Pipeline, Inc. (USPL), headquartered in Houston, Texas, is recognized as one of the safest, most reliable and innovative energy infrastructure construction companies in the Americas. USPL has successfully operated in the United States and select international markets for more than 20 years. USPL has earned a reputation as one of the safest pipeline contractors in the business and is proud of a lengthy record of Pipeline Contractors Association (PLCA) safety award achievements. uspipeline.com

RESOURCE NEEDS AND TIMELINE

Construction of the Atlantic Coast Pipeline (ACP) is expected to support 17,000 jobs over the course of the project. Nearly 7,200 construction workers will be needed in 2018 and an additional 5,600

in 2019. During these peak construction years, a diverse workforce will be in place to manage a wide-range of project needs.

THREE MAIN TYPES OF RESOURCE NEEDS

Community Services for Pipeline Workers

These local businesses provide needed services to construction crews.

Subcontractors, Suppliers and Vendors

These local businesses provide critical goods and services to support construction activities.

Skilled Crafts and Trades Members

These positions will be filled by an equal mix of local and non-local union members.

HIRING PROCESS AND TIMELINE

Construction of the ACP is expected to begin in 2018. Resourcing services will occur in 2018 for spreads under construction that year and in the

spring of 2019 for spreads under construction then. Procurement of supplies and services will be ongoing throughout the construction process.

SUBCONTRACTORS AND VENDORS

Support from local vendors, suppliers and businesses will be very important to the success of the Atlantic Coast Pipeline (ACP). Contractors will rely heavily on many local businesses to provide critical supplies and services throughout the course of the construction project.

TYPES OF SUPPLIES AND SERVICES PROVIDED BY LOCAL BUSINESSES
